Why become a Contractor Assistance Program Subscriber?

PEC/Premier's Contractor Assistance Program (CAP) is designed to help the contractor meet industry expectations. By subscribing to the Contractor Assistance Program, we give you an evaluation of your company's safety program, identifying your strengths and weaknesses, while giving you a snapshot of how the Operators view your program. CAP then helps you focus on solutions to any weaknesses found; thus greatly improving the Operator's view of your company's safety program and possibly leading to increased business and the overall profitability of your company.

[Return to Table of Contents](#)

EVALUATION BENEFITS — Where are you?

These three SSQ ([Standardized Safety Questionnaire](#)) evaluation benefits are the linchpin of the Contractor Assistance Program. Because if you do not know where you are, how can you get to where you want to go?

CAP Report Card — See your generic SSQ score!

This is NOT your Operator score. Each Operator builds their own individual scoring system for use with their Contractors. We cannot show you their score but our CAP Report Card is the next best thing. Our CAP Report Card is designed to provide a 'typical' [SSQ](#) score for your company which will enable you to determine how most Operators evaluate your safety program. This invaluable data can reveal your company's strengths and weaknesses in your overall safety program. Your CAP Report Card grade is an average score for your own internal use — it is not shared with the Operators.

[Return to Table of Contents](#)

Industry Comparison Report: TRIR — Compare your TRIR to your peers'.

Many Operators pay particular attention to a Contractor's Total Recordable Incident Rate (TRIR). This CAP benefit allows you to compare your company's TRIR as recorded in your [SSQ](#) against the actual TRIR data from other companies. The Industry Comparison Report shows this comparison for all services you have listed in your [SSQ](#). This is done anonymously. You can now compare your company with your competition! This information could be extremely useful for future business.

[Return to Table of Contents](#)

Summary Report — Review a snapshot report of your SSQ.

Look at the same snapshot report of your company's [SSQ](#) data that the Operators can view. Instead of looking at the entire [SSQ](#) report made up of probably 25+ pages of data, you only need to glance at two. Our Summary Report condenses your data down to the most important aspects of your safety program. This is the data with which the Operators are most concerned. This saves you a tremendous amount of time and money.

[Return to Table of Contents](#)

SOLUTION BENEFITS — Helping to get you where you want to be.

We desire to help you get your company where you want it to be. The Contractor Assistance Program was designed specifically to assist you, the contractor, in achieving your safety program goals. Below are some of the CAP benefits that can help you accomplish this.

[Return to Table of Contents](#)

Consulting Assistance — Free and discounted rate consulting services.

PEC/Premier Safety Management offers professional [QEHS consulting](#) to CAP subscribers at a discounted rate. Also included with your CAP subscription is one free hour of our professional QEHS consulting services via phone. We want you to call us with your safety questions. This is a \$150.00 value! For example, you could use this free one hour consulting to discuss ways of correcting any weaknesses discovered in your CAP Report Card or Industry Comparison Report. Later, discounted consulting and audits can help make your company pro-active in preventing future problems, thus keeping your company on a positive track.

[Return to Table of Contents](#)

Safety Meeting Assistance — Monthly safety meetings emailed to you.

We will save your company time, money, and energy by assisting your company with your safety meetings. As a CAP subscriber, we automatically email you monthly PDF documents that you can use as tools in conducting periodic safety meeting with your employees. Therefore, you do not have to go out and develop these materials. We provide presentations, test questions, sign-in sheets, etc., so all you have to do is conduct the meeting and file it. If you are audited, you can be confident that this requirement has been fulfilled. Estimated value \$345.00.

[Return to Table of Contents](#)

Training Discounts — Receive discounts on classes and materials.

As a CAP subscriber, you receive discounts on training materials and classes. You can come to our training facilities or we can go to yours. PEC/Premier is committed to providing training of the highest quality that not only meets your company's specific needs, but also satisfies Operator-driven and regulatory requirements. Since we own the rights to [SafeGulf](#) and we are a [SafeLandUSA](#) training organization, our training meets or exceeds these industry standards.

Savings example: CAP subscribers save \$75.00 per student on [PEC Basic-SafeGulf/SafeLand Orientation](#) over non-subscribers. Save \$100.00 per student on [PEC Core Compliance](#) over non-subscribers. For further savings on our training, please [click here](#) to see all our training course offerings.

[Return to Table of Contents](#)

Replacement Cards — Receive a discount on replacement badges.

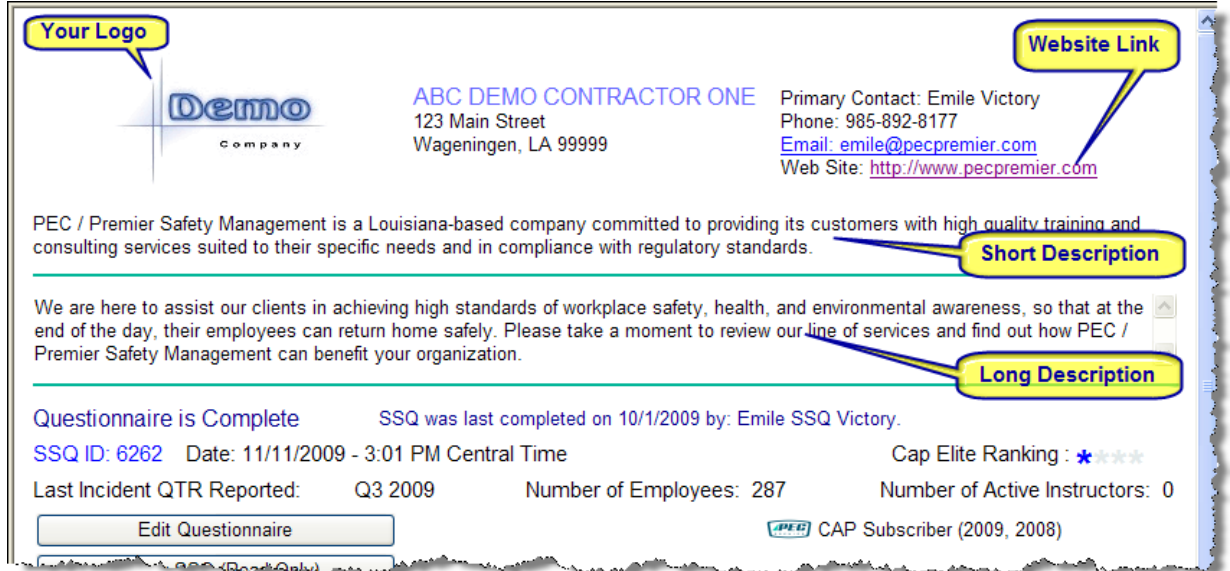

As a CAP subscriber, you will receive a significant discount on the cost replacement PEC badges for your employees.

[Return to Table of Contents](#)

Advertising Assistance — Let us help advertise your company.

As a Contractor Assistance Program subscriber, we can help you advertise your company in three important ways:

1. Display your company logo, website link, and a company description on your [SSQ](#) home page where Operators can see it. This will make your company stand out against the competition. Below is a sample of a CAP subscriber's SSQ home page.

The screenshot shows a web page for 'ABC DEMO CONTRACTOR ONE'. It features a logo for 'Demo Company', contact information (123 Main Street, Wageningen, LA 99999), and contact details for Emile Victory (Phone: 985-892-8177, Email: emile@pecpremier.com, Web Site: http://www.pecpremier.com). The page includes a short description of the company's services and a long description. It also displays questionnaire completion status (SSQ ID: 6262, Date: 11/11/2009), a Cap Elite Ranking of four stars, and other statistics like 'Number of Employees: 287' and 'Number of Active Instructors: 0'. A button for 'Edit Questionnaire' and a 'PEC CAP Subscriber (2009, 2008)' badge are also visible.

[Return to Table of Contents](#)

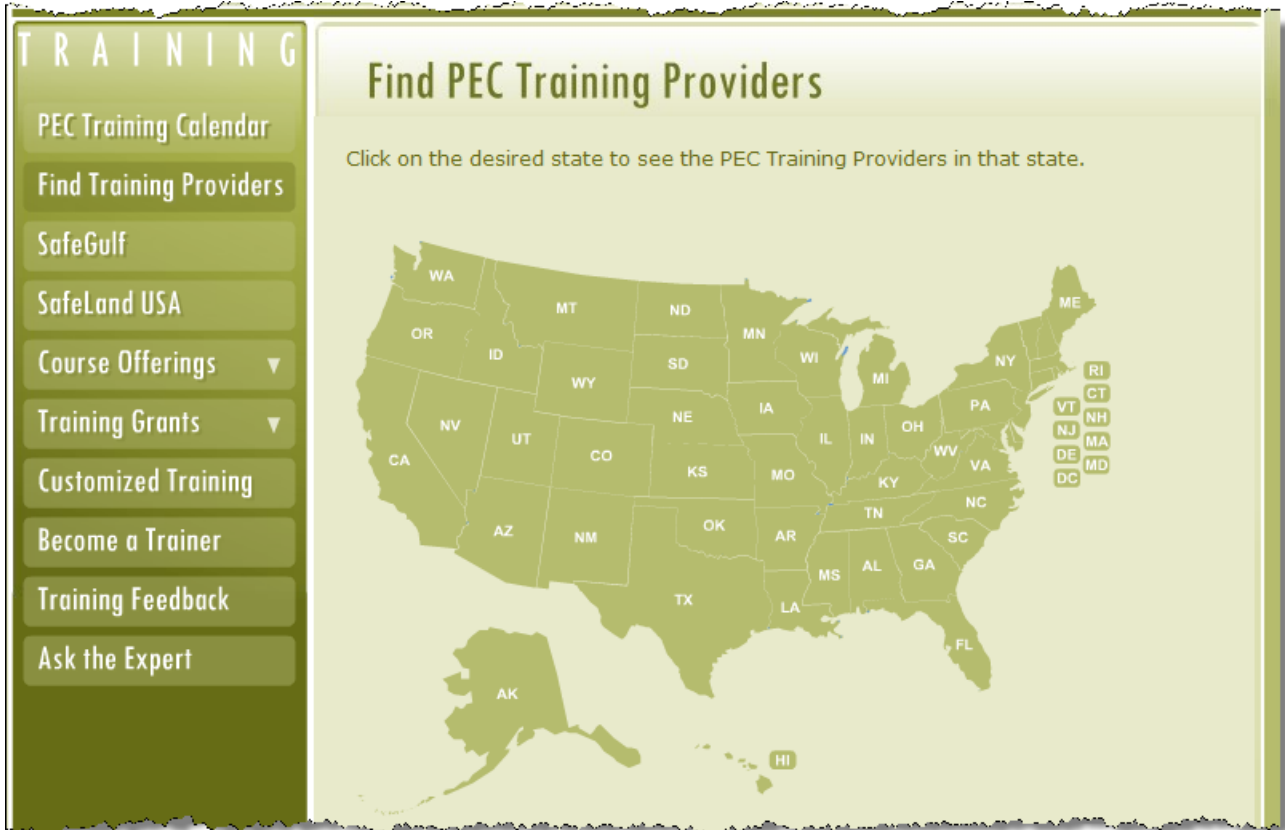

2. Display your company's name, address, logo, contact information, a brief company description, and website link on PEC's [Current CAP Listing](#) website page, which lists all CAP subscribers. This page is a place where Operators can shop for Contractors. The image below is an example of what a CAP subscriber's listing looks like.

A sample listing for a demo contractor. On the left, a yellow speech bubble with a blue border contains the text "Sample Listing". The listing itself is enclosed in a light blue box with a dashed border. It features a logo for "Demo Company" on the left. To the right of the logo, the text reads: "PEC/PREMIER (DEMO CONTRACTOR) (Demo account for Testing Purposes)", "233 General Patton Ave", "Mandeville, LA 70471", "Emile Victory", and "985-892-8177". At the bottom of the listing, it says "Website: <http://www.pecpremier.com>".

[Return to Table of Contents](#)

3. If you are a training provider, display your company's name, address, logo, contact information, a brief description, and website link on [PEC's Training Directory](#). The images below show our training directory page with an example of a training provider's listing.

The image shows a screenshot of the "Find PEC Training Providers" page. On the left is a vertical navigation menu with the following items: "TRAINING", "PEC Training Calendar", "Find Training Providers", "SafeGulf", "SafeLand USA", "Course Offerings", "Training Grants", "Customized Training", "Become a Trainer", "Training Feedback", and "Ask the Expert". The main content area has the heading "Find PEC Training Providers" and the instruction "Click on the desired state to see the PEC Training Providers in that state." Below this is a map of the United States with state abbreviations. A legend on the right side of the map lists the following states: RI, CT, NH, NJ, MA, DE, MD, VT, NY, PA, WV, VA, NC, SC, GA, AL, MS, LA, TX, NM, AZ, CA, NV, UT, CO, KS, MO, TN, KY, OH, MI, WI, IL, IN, IA, NE, SD, MN, ND, WA, OR, ID, WY, MT, ME, AK, and HI.

PEC/Premier's Training Provider Listing

PEC/PREMIER SAFETY MANAGEMENT INC
233 General Patton Ave.
Mandeville, LA 70471

Wes Carr
985-892-8177
wes@pecpremier.com

PEC/Premier Safety Management is committed to providing training of the highest quality that not only meets company specific needs, but also satisfies Operator-driven and Regulatory requirements.
Website: <http://www.pecpremier.com>

[Return to Table of Contents](#)

The latter two are of the most accurate and accessible directories in the industry. Just one call or lead from this advertising resulting in added business or a contract could pay for many years of your CAP subscription.

[Return to Table of Contents](#)

Participation on CDT — Be part of the Contractor Development Team.

The Contractor Development Team (CDT) was created to provide you, as a contractor, with an equal opportunity to have input on decisions that may have an impact on your business. As a subscriber to CAP, your company is automatically a member of the CDT. This benefit gives your company a venue to voice your suggestions and concerns to the operators. Over a number of years this can lead to meaningful changes that may be very positive not only for your company but the entire industry.

[Return to Table of Contents](#)

Subsidiary Tree — Manage multiple SSQs with one login.

If your company has multiple [SSQ](#) accounts, this CAP benefit allows you to manage all of your [SSQ](#) accounts from a single user login. You can organize all of your subsidiary companies in one place so Operators can easily find the correct [SSQ](#).

[Return to Table of Contents](#)

Confirmation of Employee Training — Verify potential hire's PEC training.

You can confirm that a potential employee has completed [SafeGulf](#), [SafeLandUSA](#), [PEC Basic-SafeGulf/SafeLand Orientation](#), or [PEC Core Compliance](#) training. CAP subscribers receive lookup rights in our new [Training Tracker](#) database. You will have the ability to lookup, view, and print the PEC training history of potential employees as well as existing or former employees. This benefit can save your company on duplicate training costs. If a new hire says they have been through SafeGulf or PEC Core Compliance but have no documentation, you can now verify whether they really need to be trained or not. Again, this tool can save your company valuable time and money.

[Return to Table of Contents](#)

Employer Admin Service — Manage your employee records.

As a CAP subscriber you are able to manage the PEC training records of your employees. This service is not the same as the [Advanced Training Tracker Tools](#). The Employer Admin Service deals purely with an employee's PEC training records whereas the [Advanced Training Tracker Tools](#) works with all of a contractor's training records (both PEC and third-party). A list of some of the features available with the Employer Admin Service are as follows:

1. Search the entire Training Tracker database for non-employees who may have had PEC training in the past and add them to your company as employees.

2. Maintain the active/inactive status of your employees.
3. Edit a trainee's contact and employee information.

[Return to Table of Contents](#)

PREMIUM BENEFITS — Helping you to be proactive.

CAP participant Premium Benefits are products and services available for purchase designed for companies to be proactive once industry standards have been met.

[Return to Table of Contents](#)

Subcontractor Management Services — Manage your Contractor's SSQs.

As a CAP benefit, your company is entitled to purchase Subcontractor Management Services. This benefit allows your company to set up and view your subcontractors' [SSQs](#). Just as Operators are looking for contractors with excellent safety programs in place, your company also needs to ensure its subcontractors meet Operator expectations. Many contractors tell us this benefit saves them time and money in managing this important data. Pricing varies based on the number of subcontractors.

[Return to Table of Contents](#)

Train-the-Trainer — Train your employees in-house.

Only employees of CAP subscriber's are eligible to be certified as in-house PEC instructors. They are then authorized to deliver PEC training for your company personnel. Your company can save thousands of dollars by doing your training in-house. [Click here](#) for more information on our Train-the-Trainer course offerings.

[Return to Table of Contents](#)

Materials Printing License — Print your own PEC course materials and save.

If you already have PEC instructors on staff and your company is a CAP subscriber, you can purchase a Materials Printing License which will allow your company to print your own PEC student training manuals on-site. Then, the Materials Printing License also allows you to purchase PEC course packets that do not include the printed student manuals. This significantly reduces the cost per packet.
